Prevalence from Montepulciano grape

---

## ALCOHOL CONTENT

40% vol.

---

## TASTING TEMPERATURE

---

10 – 12°C

## ORGANOLEPTIC FEATURES

Grape must brandy comes from the pressing of the grapes still fresh from the harvest, the grapes, de-stemmed, with their perfumed peel and sugary pulp are transformed into must, distilled with discontinuous steam stills. With a fruity and aromatic bouquet, it originates from the rarest and most precious vines of the farm. A refined, intense and soft distillate, offered in limited quantities in respect of artisan production.
